PROFILE Product Designer with a strong engineering background - experienced in delivering web, mobile, and immersive digital products from concept to launch. Skilled in UX research, interaction design, accessibility, and rapid prototyping. Passionate about building tools that simplify complex workflows, with hands-on experience using code and AI-assisted workflows to ship functioning products. Currently completed an MSc in Creative Digital Media & UX with 2+ years of hands-on product design experience across real-world, academic, and freelance projects.

SKILLS	UX Research & Usability Testing Interaction Design Figma (Components & Auto Layout) Responsive UI Design Accessibility Standards	Design Systems Prototyping (Low-High Fidelity) Frontend Fundamentals (HTML, CSS, JavaScript, React, TypeScript) AI-Assisted Prototyping & Development

SELECTED PROJECTS

Mar 2025 — Dec 2025	RedVelvetVault Designed and shipped a full-stack web platform enabling users to discover, explore, and engage with digital artwork in virtual game-like 3D galleries. [Website LINK] [Show-reel LINK] [Project Report] <i>Product Designer & Developer</i> • Led end-to-end UX process from research to final delivery, conducting usability testing with 50+ users to validate navigation, onboarding, and interaction flows (81% rated the experience intuitive). • Designed scalable UI components and user flows in Figma, establishing consistent visual hierarchy, spacing, and accessibility standards across the platform. • Built and implemented the final product using React, TypeScript, Firebase, and AI-assisted development workflows (ChatGPT + Cursor), translating design directly into production-ready code. • Collaborated between design and development decisions, balancing usability, performance, and real-world technical constraints. • Shipped functional features including user authentication, content interaction, personalisation, and real-time engagement tools. • Applied accessibility-first principles to improve readability, contrast, and cognitive clarity across complex workflows.

PROFESSIONAL EXPERIENCE

Oct 2024 — Present	INDEPENDENT PRODUCT DESIGNER (FREELANCE) • Created user-centered designs through detailed wireframing and prototyping. • Produced interactive prototypes and high-fidelity mockups tailored for diverse digital environments. • Executed usability testing to collect user insights, refining designs based on feedback. • Facilitated workshops with stakeholders to ensure clarity and consensus on design goals. • Applied design systems and accessibility standards to enhance user experience across all projects.
Jan 2025 — Present	PRODUCT DESIGN CONSULTANT (Content & Growth), TWO BLOKES TRADING Dublin Two Blokes Trading is a finance-focused content brand with a growing digital product offering (Trevesto), targeting retail investors. • Contributed to product growth and user engagement through end-to-end content design for Two Blokes Trading’s app and brand ecosystem (including Trevesto) • Produced 30+ long-form podcast episodes and 250+ short-form videos across YouTube, Instagram, TikTok, LinkedIn, X, and web platforms.

- Designed and delivered 300+ digital assets aligned with brand positioning, SEO strategy, and platform-specific user behaviours.
- Increased YouTube subscribers from 2.9K to 8.2K (+183%) and total views from 34.9K to 165.5K (+374%) within 10 months while working two days per week.
- Collaborated with marketing to create SEO-driven, user-focused multimedia content, improving engagement through clear CTAs and accessible cross-platform design.
- Worked closely with founders, marketers, and developers, incorporating feedback rapidly and contributing design input during app development to align content with overall product strategy.

Jul 2022 — Mar 2023

ARCHITECTURAL INTERN, ARCOP ASSOCIATES

Bengaluru

Arcop Associates Pvt Ltd is a multidisciplinary architecture and design firm known for large-scale commercial, institutional, and urban development projects across India.

- Produced detailed technical drawings (plumbing, HVAC, lighting) aligned with design specifications and regulatory standards, ensuring clarity between design intent and execution.
- Led 3D visualisations and high-fidelity presentation decks for 5+ major projects, improving stakeholder understanding and decision-making (reported 60% increase in client clarity).
- Collaborated with multidisciplinary teams to translate technical constraints into clear, visually communicative design solutions.
- Applied user-centred principles to spatial layouts, incorporating feedback to improve functionality and usability of built environments.
- Contributed to structured documentation systems that improved workflow consistency and design standardisation across projects.

EDUCATION

Sept 2024 — Mar 2026

MSc in Creative Digital Media and UX, Technological University
Dublin

Dublin

- Authoring Principles
- Design Practice
- VR & AR Applications
- Information Modelling
- Production & Prototyping
- Project Definition & UX Treatment
- Social Media Applications
- User Interaction Design
- Major Project & Report

Aug 2023 — Mar 2024

Executive PG in UI/UX [CredentialID - IPTIH2403279], Indian
Institute of Technology Roorkee

Roorkee, India

Jul 2018 — Nov 2023

Bachelor of Architecture, Manipal School of Architecture and
Planning

Manipal, India

TECHNICAL STACK

Design Tools

Figma, Sketch, InVision, Adobe Creative Cloud (Photoshop, After Effects, Premiere Pro), Framer

Frontend Development

HTML, CSS, JavaScript, TypeScript, React, Next.js, Ionic, Tailwind CSS, Three.js, GSAP, Motion.dev, Unicorn Studio

Backend & Data

Firebase, PHP & MySQL, REST APIs, JSON, Node.js, Vercel

Immersive Design

Unity + C#, AR/VR Environments, 3D Interaction, Game UI Design

Collaboration & Tools

Git/GitHub, Trello, Miro, Stakeholder Communication, Workshop Facilitation
